Back Bar Coolers are an excellent option for keeping bottled or canned beverages cold and accessible. The spacious stainless steel interior houses a LED light to illuminate the inside, which is especially convenient in dark operating environments. Units are built to perform in either built-in, stationary, or mobile applications. Multi-pane glass doors display the product for impulse purchases and make the appliance energy efficient. The nominal 27.6" depth (702mm) fits in almost any commercial application and holds your beer-beverages at an ideal serving temperature.
